S. A. E. JOURNAL

INDEX TO VOLUME XXVI, JANUARY-JUNE 1930

DIVISION OF PAGES BY MONTHLY ISSUES

January	1-122	March	299-412	May	529-656
February	123-298	April	413-528	June	657-872

(D) indicates discussion published; (N) mention in news report; (P) paper published.

Author Index

Author	Title of Paper	Page
Abbott, Frank D.	Tests for Vibration Insulators	(N) 403
Alden, H. W.	A Quarter-Century Retrospect	(N) 662, 691
Aldrich, Elizabeth, and O. C. Bridgeman	The Effect of the Weathering in the Tank on the Vapor-Locking Tendency of Gasoline	(N) 837
Allee, H. D.	The Necessity of Standardization in Canada	(N) 393 (P) 791
Allen, H. H.	Headlight Research	(N) 427
Armitage, J. B.	A Production Machine-Tool of Elastic Design	(P) 87
Autenreith, Prof. George, and Prof. Harry Baum	Pre-Manifold Vaporization	(N) 13
Baender, Prof. F. G.	Diesel Engine for Automotive Use	(N) 112, 868
Barton, C. H., C. H. Sprake and R. Stansfield	Comparison of Antiknock Ratings Determined in Different Laboratories	(N) 132 (P) 479
Bauer, W. C.	Vapor-Locking Tendencies of Automotive Fuel-Systems	(P) 736 (N) 838
Baum, Prof. Harry, and Prof. George Autenreith	Pre-Manifold Vaporization	(N) 13
Beisel, Rex B.	Future Possibilities of the Liquid-Cooled Aircraft Engine	(N) 407
Bellanca, Giuseppe	Amphibian Design and Transportation	(N) 828
Bills, Ralph E.	Beauty in Utility Design	(N) 644
Birdsall, E. T.	Builded Better Than They Knew	(N) 662, 694
Blackwood, A. J., E. B. Hunn and H. G. M. Fischer	Gum in Gasoline	(P) 31
Blanchard, Harold	Engines of 1930 Cars	(N) 286
Born, Frank C.	Shock-Absorbers	(N) 112
Boukard, Sam L.	Application of New Reflector-Contours to Modern Automotive Lighting Equipment	(N) 291
Bower, L. L.	Industrial Applications of the Automotive Engine	(N) 423
Boyd, T. A., John M. Campbell and Wheeler G. Lovell	Detonation Characteristics of Some of the Fuels Suggested as Standards of Antiknock Quality	(N) 131 (P) 163 (D) 485
Brackett, F. J.	Motor Transport's Broad Field	(N) 386
Brandenburg, Dr. G. C., and Prof. Ammon Swope	Psychology of Riding-Qualities	(N) 852
Bridgeman, O. C.	The Properties of Gasoline with Reference to Vapor Lock	(N) 130
Bridgeman, O. C., and Elizabeth Aldrich	The Effect of the Weathering in the Tank on the Vapor-Locking Tendency of Gasoline	(N) 837
Bridgeman, O. C., and H. S. White.	Effect of Airplane Fuel-Line Design on Vapor Lock	(N) 310, 685
Brooks, D. B.	Influence of Atmospheric Conditions on Knock Testing	(N) 131
Brooks, D. B., and C. S. Bruce	Effect of Design on Engine Acceleration (N) 131	(P) 471
Brown, Knox T.	Service Management	(N) 399
Bruce, C. S.	Engine Acceleration	(N) 837
Bruce, C. S., and D. B. Brooks	Effect of Design on Engine Acceleration (N) 131	(P) 471
Brumbaugh, A. K.	Saving Material with New Tools	(N) 633
Brumbaugh, A. K.	Tungsten-Carbide Steel in Production	(N) 140
Buckendale, L. R.	Application of Balloon-Tire Equipment on Motor-coaches and Trucks	(N) 839
Buckendale, L. R.	Four-Wheel Drives for Six-Wheel Chassis	(D) 59
Bull, Arthur A.	Application of Engine Governors to Transportation Equipment	(P) 235
Cain, Charles S.	Inspection Methods Used for Aircraft Engines and Parts	(P) 576
Campbell, D. J.	Casting Cylinders in Green Sand (N) 140	(P) 177
Campbell, John M., Wheeler G. Lovell and T. A. Boyd	Detonation Characteristics of Some of the Fuels Suggested as Standards of Antiknock Quality	(N) 131 (P) 163 (D) 485
Carlson, R. E	Boat Lighting and the Need for Standardization	(N) 150
Cessna, Eldon W.	Gliding	(N) 407

Author	Title of Paper	Page
Chase, Herbert	Atrocities of the 1930 Show	(N) 134
Chase, Herbert	Comment on American Passenger-Car Gearsets	(N) 847 (P) 727
Chilton, Roland	Airplane-Engine Development and Operating Reliability	(N) 306 (P) 771
Christensen, C. A.	Efficient Carburetion	(N) 291
Coatelen, Louis, and Frank Martinuzzi	Design of Silver Bullet	(N) 638
Combs, R. H.	Storage Batteries	(N) 290
Cook, Russell M.	Development of Lacquer Finishes	(N) 288
Cosler, V. A.	Compounding of Rubber	(N) 403
Cowell, Robert F.	Rubber Articulation for Shock Absorption	(N) 403 (P) 747
Cummings, H. K.	Gasoline Requirements of Commercial Aircraft-Engines	(N) 310
Cummins, C. L.	A Diesel Engine in an Automobile	(P) 512
Cummins, C. L.	Diesel Engines for Automobiles	(N) 682
Curtis, Asabel	Mount Ranier National Park Roads	(N) 401
Dabo, Leon	Art and Symmetry in Car Design	(N) 429
Dagner, Edward	Four-Wheel-Drive Six-Wheel Trucks	(N) 114
Dalsky, K. A.	Tires and Their Relation to the Vehicle	(N) 111
Darnell, R. C.	Engine-Lubrication System	(N) 422
Davidson, W. J.	Work of the General Motors New Devices Committee	(N) 144
Davis, W. F.	In-Line versus Radial Aircraft-Engines	(N) 827
Denham, A. F.	Improvements in Chassis	(N) 286
Dilg, E. W.	Rotary-Type Gasoline Pump	(N) 648
Dittus, Fred W.	Heat Transfer through Tubes	(N) 407
Doolittle, James H.	Flying an Airplane in Fog	(P) 318
Dornier, Dr. Claude	Do-X Flying Ship (P) 554	(N) 830
Dowdell, Dr. R. L., E. M. Staples and C. E. Eggenschwiler	Bearing Bronzes with Additions of Zinc, Phosphorus, Nickel and Antimony	(N) 678
Dunnell, Jacob	Outboard Motors (N) 150	(P) 623
Dynes, R. S.	Oil-Testing Device	(N) 641
Earl, H. W.	A Compact Aeronautic Engine	(P) 341
Eaton, J. M.	Developing an International Airway System	(N) 273
Eberhard, H. S.	Problems Connected with the Design of Track-Type Tractors	(N) 642
Eggenschwiler, C. E., Dr. R. L. Dowdell and E. M. Staples	Bearing Bronzes with Additions of Zinc, Phosphorus, Nickel and Antimony	(N) 678
Elliott, Frank	Ethyl	(N) 405
England, E. C. Gordon	Body Mounting	(N) 278
Eskuche, Oscar A.	The Relationship of Car Design and Service	(N) 429

A

Accelerometer
- Brown, for riding-quality analysis 808
- Gyro, for riding-quality analysis 854
- Spark-recording, for engine testing 131, 471, 478, 837

Accidents and Accident Prevention
- Aircraft
  - Accurate reports desirable 771
  - Automobile compared with 771, 861
  - Causes analyzed 307, 773, 774, 781, 782
  - Department of Commerce safety requirements 226, 302, 648
  - Engine effects
    - Accidents due to 307, 774, 781, 782
    - Carbureter 371
    - Diesel, fire hazards reduced with 39, 339, 424, 442
    - Muffler 351
    - Multi-engine safety 772, 861
  - Fire prevention 39, 339, 371, 424, 442, 618
  - Fog flying 299
    - Flying an Airplane in Fog 306, 318
  - Guggenheim Safe-Airplane Contest 395, 413, 538, 543
  - Safety features 11, 226, 227, 395, 445, 543, 552, 867
- Automobile
  - Aircraft compared with 771, 861
  - California Highway Patrol safety work 289
  - Fatigue effects 519
  - Fire loss 95
  - Governors 243, 245
  - Racing-car safety features 628
  - Skidding, front-wheel drive effects 109, 143, 354, 358, 359, 360, 754, 755, 758, 759, 760, 761, 762
  - Steel bodies, safety of 277
- Garage fires 366
- Motorboat fires
  - Motorboat Fire Prevention 95
  - Prevention of Fires on Motorboats 150, 618
  - Diesel engine effects 216, 619
  - Hazards 95, 150, 488, 490, 618, 621
  - Prevention 95, 216, 619
- Motorcoach
  - Advantages compared with street cars 191
  - Regulation 846
- Motor-truck 245
- Welding fire-hazards 102

Air-Cleaners
- Flame arrester, merits as 95
- Motor-truck engine use of 424, 606
- Progress 247

Aircraft Design and Construction
- Criteria for the Structural Strength of Airplanes 226
- What the Public Wants in Airplanes 443
- Wings—A Coordinated System of Basic Design 15
- Ailerons 302, 546
- Amphibians
  - Design requirements 274
  - Production cost 829
  - Speed 828
  - Weight 828, 829
- Appearance desired 444, 447
- Autogiro 396, 417, 830
- Bibliography on 812
- Biplane 22
- Connections, weakness of 229
- Controls and control surfaces 302, 539, 548, 560
- Defects in 302
- Design requirements 15, 226, 302, 648
- Drag equations 16, 26
- Engine-design effects
  - Cooperation desirable 773
  - Mounting 773
  - Requirements 335, 341, 346
- Fabric finishes 648
- Flying boats 554, 829
- Forms of 394
- Gliders 407, 413, 429, 541
- Guggenheim Safe-Airplane Contest 395, 413, 538, 543
